Required Materials

The Technique of Orchestration, 6th ed. by Kent Kennan
Score paper, small plastic ruler, pencils, etc.

The course

This course is intended as an introduction to the principles and technique of orchestration. Proceeding from presentations and lectures, the principal orchestral choirs will be studied first separately, later in their roles and function within the complete symphonic ensemble. Weekly assignments are particularly important and will reflect and represent each stage of study.

Objectives

By the end of the semester, the student should be able to:

- Write performance materials for instruments in the families of strings, woodwinds, brass and percussion using proper notation and transposition
- Write within the practical ranges of instrumentalists of various ages and abilities
- Write with an awareness of the unique tonal characteristics and limitations of each instrument and various instrument combinations
- Produce clear, accurate and readable scores and parts
- Orchestrate in different texture types
- Create a complete arrangement (for the UM Symphony Orchestra)

Required Computer Software

To access course materials through Moodle and Spotify you will need the following software programs: Microsoft Word, Adobe Acrobat Reader, Windows Media and Power Point. Many of you will already have this software installed on your computer. If not, and you experience difficulties opening up files posted on Moodle, there are 'reader' versions of these programs available as free downloads online. See the following links:

Adobe Reader: <http://www.adobe.com/products/acrobat/readstep2.html>

MS Word, Power Point, and Windows Media: <http://www.microsoft.com/downloads>

Evaluation

Weekly assignments (30%)

Midterm Exam (30%)

Final arranging project for full orchestra (40%)

-The arrangement will count as the final for the course and must be scored using Sibelius or Finale software. The arrangement may be either a transcription of a keyboard work, from a different medium, or an original arrangement of a folk song, etc. The piece chosen must be approved by the instructor.

-The piece will be read by the UM Symphony Orchestra during their final class period

Attendance Policy

Attendance required. Tardiness is disruptive and will be noted by the instructor. Excessive tardiness will affect grading adversely. Two absences are allowed during the semester – ½ a letter grade will be deducted from the final grade for every absence thereafter.

Academic Misconduct and the Student Conduct Code

All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at www.umt.edu/vpsa/policies/student_conduct.php

Accessibility Statement
